## I. GENERAL INFORMATION :

Padmabhusan Dr. B.V. Raju Foundation & Sri Vishnu Educational Society were established with a long cherished ambition to promote and disseminate knowledge and serve the cause of education, in general and technical / professional education, in particular. The Foundation & Society are engaged in Teaching, Research and Extension in different disciplines of Engineering, Pharmacy, Dental, Polytechnic, Life Sciences, etc.

Padmabhusan Dr. BV Raju, the Founder Chairman of Dr.B.V.Raju Foundation & Sri Vishnu Educational Society, was a man of simple words, high aims, and higher achievements. Starting his career in a small way in the cement industry, the tenacious young man rose to the level of Managing Director within a short span and he was invited to head the Cement Corporation of India (CCI). He then went on to play a key role in the planning, construction and commissioning of various cement factories across India. The Government of India, recognized the distinguished services of this Doyen of Cement Industry and awarded him the title "Padma Sri" in 1977. His first small step as an entrepreneur into the industry with his very own Raasi Group of Industries became a giant leap of success catapulting him to the pinnacle of his career.

**PROPOSAL:** We would like to introduce a Certificate Programme of 3 months duration in Banking & Insurance in our institution to cater to the needs of the local community keeping in view the following:

### JOB OPPORTUNITIES IN THE BANKING INDUSTRY:

Indian Banking industry has been growing rapidly. All the Banks in both Public and Private Sectors have been laying emphasis on Customer Service and Innovation. With the Government initiatives on Financial Inclusion many new Banks will be established. Future for the Banking Sector looks very promising with expected growth rate of over 15-20% for the next 4-5 years. Retail Banking and emphasis on SME Sector financing, cross selling of Financial Products like Insurance, Mutual Funds etc. will result in huge opportunities for the Sector.

This calls for massive recruitment and training effort on the part of the Banks, to provide for the growth opportunities and also to compensate for the large scale retirements and voluntary retirement of Bank employees. Banks also are looking to replace older employees with fresh recruits as the new generation employees are

more productive and less expensive. With over 30-60% of the population remaining outside the Banking system, Government and the Reserve Bank of India will be keen that a number of new Banks are established and the existing Banks expanded.

While Banking is an important segment of the Financial System, there is a huge financial services sector with enormous employment potential. The growing personal incomes, corporate restructuring, financial liberalisation and growth would result in huge employment opportunities in this sector. In India the culture is becoming more credit oriented with innovative products like consumer loans for cars and homes, personal loans. Large amounts of savings are likely to come to the capital markets through direct investments in equities or money flows through mutual funds, insurance companies and pension funds. Hence there is growing need for finance professionals.

### SPECIFIC OBJECTIVES OF THE COURSE:

The Add on course in Banking & Insurance is designed to impart entry level banking skills on various aspects of field level functions like Customer Relationship management, Account Management like opening and maintenance of Deposit and Credit Accounts, legal and regulatory aspects etc. On completion of the course the candidates are expected to be industry ready, which is the need of the hour for Banks who are short of trained manpower.

Over the next three-four years, it is likely that in the Public Sector Banks alone, there will be recruitment to the extent of over 1 lakh candidates. RBI has issued guidelines for setting up of new Settlement and Payment Banks to achieve the goals of financial inclusion. If we included the employment opportunities of Private Sector and Cooperative Banks, the figure will be much higher, even not taking into account the opportunities in Capital Markets and Insurance Sectors.

The course in Banking & Insurance would help the candidates to prepare for the Clerical and Probationary Officer's examinations of Banks. It will also help them to prepare for the examinations being conducted by the Institute of Bankers and the National Securities Depository Ltd. which will act as passport for Bank employment.

### 3. COURSE DESIGN:

The duration of the course is 3 months in which the following subjects will be included

1. Principles and Practices of Banking
2. Accounting and Finance for Bankers
3. Risk Management, Compliance and Regulation in Banks

### 4. COMMENCEMENT OF THE COURSE:

Normally this 3 months course may be offered two times in a year:

First Course: To commence in the month of July.

Second Course: To commence in the month of October

An advertisement regarding commencement of the course shall be published in the local news paper(s) as well as in the college website prior to about one fortnight of commencement of the course.

Dully filled in prescribed application form for admission is to be submitted to the Principal, B.V. Raju Institute of Computer Education within the time limit framed from time to time (i. e. as per the last date mentioned in the advertisement).

### 5. ADMISSION :

#### A. Educational Qualification :

- 1) Minimum educational qualification for admission in the course is Intermediate (12th std.) pass.

#### B. Age :

The age of the candidate should be in between **18 to 25 years** on the date of commencement of the course.
