Programme Co-ordinators	: U.Raju and Team

Report on Community Outreach Program

Giving is living; Life is meant that we should not just survive, but thrive and help others thrive as well. This is something that the Department of English strongly believes in, and it has led us to want to host a Community Outreach Program to raise awareness of communication skills among schoolchildren. As a result, we met with B.V.Raju Municipal High School, Durgapuram, to obtain permission to host this event.

English communication skills are crucial for everyone, from schoolchildren to employees, but it is especially more important for schoolchildren. The decision to conduct this outreach program in government schools was made because teachers in government schools usually place a greater emphasis on reading and writing than on listening and speaking skills; it is also possible that they are unaware of the importance of language skills or are ill-equipped to do so. As a result, we decided to design an English communication skills awareness program. It is a little encouragement that can spark a great accomplishment.

We held it on April 12, 2022, for 9th grade school children with poor language capabilities. In order to turn these children from confusion to confidence in communication skills and arouse an interest among them to learn language skills, we had our students prepare Litt. Expo. projects on Grammar, i.e., Articles, Prepositions and Tenses; as well as some literary works. On displaying them, degree students, who attended the program one by one taught Litt. Expo project works, made the children involved in the subject, and interacted with them fully.

All the children remained connected and paid attention to all grammatical topics. It was observed that they felt very happy and educated. They raised their queries about how to acquire language skills to the fullest extent possible, and they were given answers.

The Headmaster of the School greeted us warmly. By assigning this assignment to an English teacher, he was able to observe the entire program. He congratulated the entire team for making a great event and encouraged us to do more programs like this in the future.

A listening skill activity after awareness program

Aside from student's demonstration of project works with explanation, a listening activity was conducted at the conclusion. It was primarily intended to enable them to perceive the importance of listening skills for a pupil; to free them from the clutches of stage fear, which prevents everyone from making a cut in some or other activity. Effective listening results in effective communication. Students were summoned on to the dais and made involved deeply in the activity. Children also showed aptitude for learning skills. It is really creditable for the pupils to have performed the activity following the guidance of the teacher. They also seemed to enjoy the exercise while performing.
